Bachelor of Arts(English)

2021 - 2024

PROJECTS

Ai-customer-support-mcp [↗](#)

August 28

AI Customer Support Agent with MCP — Built an AI-powered customer support platform using **Next.js, React, TypeScript, Node.js, Express, PostgreSQL, and JWT authentication**. Integrated an **LLM-powered agent with MCP tools** to retrieve customer/order information and automate support-ticket workflows through natural-language interactions.

PGLife – Full-Stack Property Rental Platform [↗](#)

Developed a full-stack PG accommodation platform using Next.js, React, TypeScript, Express.js, Prisma ORM, and MySQL for browsing and managing rental properties.

Implemented user authentication with JWT and secure HTTP-only cookies, along with protected dashboard functionality for managing interested properties.

Built property search, city-based filtering, gender filtering, sorting, ratings, amenities, and property detail pages with RESTful APIs.

Designed a structured backend with Prisma migrations, Zod request validation, bcrypt password hashing, CORS, Helmet, and centralized error handling.

SKILLS

- 1.TypeScript, JavaScript, React.js, Next.js
- 2.Node.js, Express.js, REST APIs
- 3.PostgreSQL, SQL
- 4.Tailwind CSS
- 5.JWT Authentication
- 6.LLM API Integration
- 7.MCP (Model Context Protocol)
- 8.AI Agents & Tool Calling
- 9.Git & GitHub

CERTIFICATE

Full Stack Web Development with AI [↗](#)

Completed an 8-week training program covering full-stack web development and AI-powered development, including HTML, CSS, Bootstrap, JavaScript, DOM, React, DBMS, PHP, and modern AI tools. Gained practical exposure to AI-assisted web development, creating layouts with AI, React with AI, AI-driven project development, and completed a final project applying the concepts learned.
